INDIA'S 'MADE IN INDIA' VACUUM PUMPS & SYSTEMS MANUFACTURE

EXPLORE NOW

ABOUT US

As the leading vacuum manufacturer based in the vibrant city of Vadodara, Gujarat, we specialize in cutting-edge vacuum pumps and vacuum systems. We take pride in delivering leading-edge vacuum and overpressure technology that meets the highest global standards. Our dedication to quality is evident in every product we create, and our commitment to customer satisfaction remains unwavering.

With a strong focus on excellence, we employ top talent and continuously challenge them to exceed industry benchmarks. Our state-of-the-art manufacturing facilities and innovative solutions enable us to deliver superior products and services. Additionally, we provide exceptional after-sales support across India, ensuring our clients receive reliable and prompt assistance whenever needed.

Our expertise and customer-centric approach make us a trusted partner in the industry. Join us on our journey towards excellence as we redefine industry standards and contribute to a sustainable future.

VacSolutë GROUP OF COMPANIES

MECHVAC TECHNOLOGIES PVT LTD

VACUUM PUMPS

- Oil Sealed Rotary Vane Pumps
- Dry Rotary Vane Pumps
- Double Stage Rotary Vane Pumps
- Oil-free Claw Vacuum Pumps
- Dry Reciprocating Piston Vacuum Pumps

VACUUM SYSTEMS

- Centralized Vacuum Systems
- Pneumatic Conveying Systems
- Medical Vacuum Systems
- Drying Process Vacuum System
- Close Loop Vacuum System
- Customized Vacuum Systems for All Industries

MECHVAC TECHNOLOGIES

OEM'S SPARES

We maintain a ready stock of over 20,000+ OEM spares & oil and lubricants for brands such as Busch, Leybold, Atlas Copco, Edwards, HHV, Tuthill, DVP, Gardner Denver, and Pfeiffer Etc.
Our service network covers North to South and East to West India, ensuring rapid response and reliable support.

ALESOL VACUUM INDIA PVL LTD

VACUUM PUMPS

- Industrial Dry Screw Vacuum Pumps

VACUUM SYSTEMS

- Centralized Vacuum Systems
- Pneumatic Conveying Systems
- Distillation Process Vacuum System
- Helium Leak Detector Vacuum Systems
- Customized vacuum systems for all industries

ALESOL EQUIPMENT

OEM'S SPARES

We maintain an in-house coating facility for Dry Screw Vacuum Pumps such as (PEEK, Nickel, Electroless Nickel, Xylan, etc.) and a ready stock of OEM spares oil and lubricants for leading brands like Busch, Leybold, Atlas Copco, Edwards, HHV, Tuthill, DVP, Gardner Denver, Everest, and Pfeiffer. Our pan-India service network ensures quick response and dependable support."

PRODUCT WE MANUFACTURING

OIL SEALED ROTARY VANE PUMPS

PRODUCT OVERVIEW

The Apex of Vacuum Pump Technology: the Mechvac MT Series. Crafted with precision using advanced direct-seal rotary vane technology, this series epitomizes excellence, marrying world-class innovation with market-driven design enhancements. Constructed from premium raw materials, each vital component ensures the M Series delivers exceptional performance: attaining extremely high vacuum levels, operating with minimal noise and vibration, maximizing efficiency, ensuring unwavering reliability, and simplifying both installation and maintenance processes.

Renowned for its durability and dependability, the MT Series stands as a symbol of reliability, seamlessly accommodating intermittent or continuous usage scenarios. Its versatility shines through a wide range of sizes, design variations, and complementary accessories, ensuring perfect alignment with various operational processes.

The user-centric design extends to maintenance protocols, empowering operators with straightforward upkeep. Routine oil changes and filter replacements at specified intervals constitute the core of maintenance, requiring minimal intervention and enabling operators to manage upkeep effortlessly.

KEY FEATURES

SALIENT FEATURES

ROBUST STRUCTURE

The Mechvac MT Series utilizes highly robust casting and steel-grade materials; FCD 400 for Stator and End-Plates, EN 31 for Rotor providing exceptional resistance to abrasion and particulate matter.

LOW NOISE & VIBRATION

The MT Series rotors boast exceptional geometric symmetry, resulting in minimal noise and vibration within the pump.

BUILT-IN OIL CHECK VALVE

The built-in check valve prevents the backflow of oil into the process equipment.

EASY & FAST MAINTENANCE

The pump's simplicity in design, with fewer rotating parts, enables quick and straightforward dismantling and assembly. Consequently, repairs can often be carried out on-site.

EXCELLENT COOLING EFFICIENCY

The MT Series features two axial fans positioned on both end guide plates, ensuring optimal and reduced temperatures during pump operation.

GAS BALLAST VALVE

The built-in gas ballast valve prevents vapor condensation, thereby enhancing water vapor handling capacity.

SO MANY STRESS DUE TO REGULAR MAINTENANCE PROBLEMS?

WE HAVE THE PERFECT SOLUTION! WHAT OTHERS SUPPLIERS CAN'T HAVE!

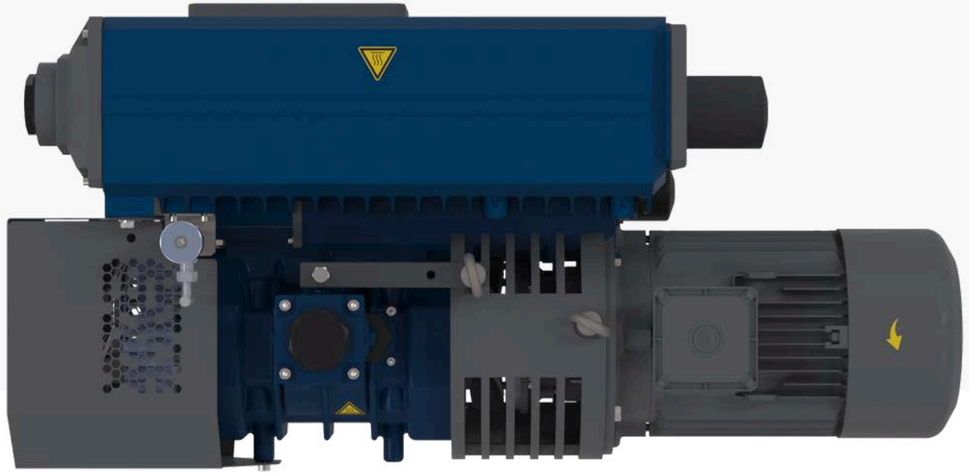

❌ They Believe in Change – **We Believe in Service!**
🔹 Others focus on replacements, while we focus on long-term reliability and support.
❌ They Just Supply Pumps & Systems – **We Provide Complete Future-Ready Solutions!**
🔹 While they sell products, we deliver fully planned systems designed for long-term efficiency With BEST MAINTENANCE STRATEGY.
❌ They Earn from Maintenance – **We Learn from Maintenance!**
🔹 Their business model thrives on breakdowns; we prevent them with proactive service & expertise.

AFTER SALES AND SERVICE SOLUTIONS AND OUR OWN BEST MAINTENANCE STRATEGY: -

✅ Pan-India Expert Service – From Kashmir to Kanyakumari, Gujarat to West Bengal, and our 25 skilled service engineers ensure seamless support across the nation.

✅ Comprehensive Maintenance Solutions – Say goodbye to downtime with our industry-leading CMC & AMC Plans

✅ 2 Largest Service Facility in India – Equipped with state-of-the-art machinery to handle all maintenance and repair needs efficiently.
